

regulation will restrict general navigation in the regulated area for the protection of life and property along the shore.

EFFECTIVE DATES: This regulation is effective on May 22, 1995 and will remain in effect until June 21, 1995 unless terminated sooner by the Captain of the Port.

FOR FURTHER INFORMATION CONTACT: LT Robert Siddall, Operations Officer, Captain of the Port, St. Louis, Missouri at (314) 539-3823.

SUPPLEMENTARY INFORMATION: Drafting Information. The drafters of this regulation are LTJG A.B. Cheney, Project Officer, Marine Safety Office, St. Louis, Missouri and LT S.M. Moody, Project Attorney, Second Coast Guard District Legal Office.

Regulatory History

In accordance with 5 U.S.C. 553, a notice of proposed rulemaking has not been published for this rule and good cause exists for making it effective in less than 30 days from the date of publication. Following normal rulemaking procedures would have been impracticable. Specifically, recent heavy rainfall on already saturated ground in portions of the Upper Mississippi River Basin has caused portions of the Upper Mississippi River to approach and exceed flood stages, leaving insufficient time to publish a proposed rulemaking. The Coast Guard deems it to be in the public's interest to issue a rule without waiting for comment period since high water conditions present an immediate hazard.

Background and Purpose

The Upper Mississippi River from the mouth, mile 110.0 to mile 130.0, has seen a rapid rise in the water level and is above flood stage. This rule is required to protect saturated levees, therefore, all vessels are restricted from the regulated area.

Regulatory Evaluation

This regulation is not major under Executive Order 12291 and not significant under Department of Transportation Regulatory Policies and Procedures (44 FR 11040; February 26, 1979), it will not have a significant economic impact on a substantial number of small entities, and it contains no collection of information requirements.

The Coast Guard expects the impact of this regulation to be so minimal that a Regulatory Evaluation is unnecessary. The imposed restrictions are anticipated to be of short duration. Captain of the

Port, St. Louis, Missouri will monitor river conditions and will authorize entry into the closed area as conditions permit. Changes will be announced by Marine Safety Information Radio Broadcast on VHF Marine Band Radio, Channel 22 (157.1 MHz). Mariners may also call the Port Operations Officer, Captain of the Port, St. Louis, Missouri at (314) 539-3823 for current information.

Small Entities

The Coast Guard finds that the impact on small entities, if any, is not substantial. Therefore, the Coast Guard certifies under section 605(b) of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) that this temporary rule will not have a significant economic impact on a substantial number of small entities.

Collection of Information

This rule contains no collection of information requirements under the Paperwork Reduction Act (44 U.S.C. 3501).

Federalism Assessment

Under the principles and criteria of Executive Order 12612, this rule does not raise sufficient federalism implications to warrant the preparation of a Federalism Assessment.

Environmental Assessment

The Coast Guard considered the environmental impact of this rule and concluded that, under section 2.B.2.g.[5] of Commandant Instruction M16475.1B, this rule is categorically excluded from further environmental documentation as an action to protect public safety. A Categorical Exclusion Determination has been prepared and placed in the rulemaking docket.

List of Subjects in 33 CFR Part 165

Harbors, Marine safety, Navigation (Water), Records and recordkeeping, Security measures, Vessels, Waterways.

Temporary Regulation

In consideration of the foregoing, Subpart C of Part 165 of Title 33, Code of Federal Regulations, is amended as follows:

PART 165—[AMENDED]

1. The authority citation for Part 165 continues to read as follows:

Authority: 33 U.S.C. 1231; 50 U.S.C. 191; 49 CFR 1.46 and 33 CFR 1.05-1(g), 6.04-1, 6.04-6, and 160.5.

2. A temporary section 165.102-041 is added, to read as follows:

§ 165.102-041 Safety Zone: Upper Mississippi River.

(a) *Location.* The Upper Mississippi River between mile 110.0 and 130.0 is established as a safety zone.

(b) *Effective Dates.* This section is effective on May 22, 1995 and will terminate on June 21, 1995, unless terminated sooner by the Captain of the Port.

(c) *Regulations.* The general regulations under § 165.23 of this part which prohibit vessel entry within the described zone without authority of the Captain of the Port apply. The Captain of the Port, St. Louis, Missouri will authorize entry into and operations within the described zone under certain conditions and limitations as announced by Marine Safety Information Radio Broadcast on VHF Marine Band Radio, Channel 22 (157.1 MHz).

Dated: May 22, 1995.

S.P. Cooper,

Commander, U.S. Coast Guard, Captain of the Port, St. Louis, Missouri.

[COTP St. Louis 95-009]

RIN 2115-AA97

Safety Zone; Illinois River, Mile 0.0 to 187.3

AGENCY: Coast Guard, DOT.

ACTION: Temporary final rule.

SUMMARY: The Coast Guard is establishing a safety zone on the Illinois River between mile 0.0 and 187.3. This regulation is required for the prevention of damage to levees and protection of flooded areas. This regulation will restrict general navigation in the regulated area for the protection of life and property along the shore.

EFFECTIVE DATES: This regulation is effective on May 25, 1995 and will remain in effect until June 24, 1995 unless terminated sooner by the Captain of the Port.

FOR FURTHER INFORMATION CONTACT: LT Robert Siddall, Operations Officer, Captain of the Port, St. Louis, Missouri at (314) 539-3823.

SUPPLEMENTARY INFORMATION: Drafting Information. The drafters of this regulation at LTJG A.B. Cheney, Project Officer, Marine Safety Office, St. Louis, Missouri and LT S.M. Moody, Project Attorney, Second Coast Guard District Legal Office.

BILLING CODE 4910-14-M

DEPARTMENT OF VETERANS AFFAIRS

38 CFR Part 3

RIN 2900-AH04

Disease Subject to Presumptive Service Connection (Radiation Risk Activity)

AGENCY: Department of Veterans Affairs.

ACTION: Final rule.

SUMMARY: This document amends Department of Veterans Affairs (VA) adjudication regulations concerning diseases presumed to be the result of exposure to ionizing radiation. This amendment is necessary to implement Public Law 103-446, the Veterans' Benefits Improvements Act, which provides that the term "radiation risk activity" includes the onsite participation in a test involving the atmospheric detonation of a nuclear device by the United States and by other governments. The intended effect of this amendment is to extend the presumption of service connection for radiogenic disabilities to those veterans exposed to radiation during active military service due to onsite participation in atmospheric nuclear tests conducted by nations other than the United States.

EFFECTIVE DATE: This amendment is effective November 2, 1994, the date of enactment of Public Law 103-446.

FOR FURTHER INFORMATION CONTACT: Lorna Weston, Consultant, Regulations Staff, Compensation and Pension Service, Veterans Benefits Administration, 810 Vermont Avenue NW., Washington, DC 20420, telephone (202) 273-7210.

SUPPLEMENTARY INFORMATION: The Radiation-Exposed Veterans Compensation Act of 1988, Public Law 100-321, which was enacted May 20, 1988, established a presumption of service connection for specific radiogenic diseases arising in veterans who had been present at the occupation of Hiroshima or Nagasaki, who had potentially been exposed to ionizing radiation as prisoners of war in Japan during World War II, or who had participated onsite in a test involving the atmospheric detonation of a nuclear device.
